We are told Harding will make a whirlwind campaign. Yes, it will be a hard blow to the Dem-

Mr. Harding represents the sentiments of the voters of Ohio, having been chosen by a thousand delegates selected for the purpose in primaries.

Is it desirable that there be a Democratic House of Representatives to deadlock progressive legislation so as to prevent the completion of Mr. Taft's program?

Conservative Connecticut in convention assembled made this tribute to the president: "William Howard Taft has set an example of official fidelity and pure patriotism to all his successors in the presidency."

Poor governor, the last blow was the worst. Forty thousand farmers were forced to forego

the pleasures and educational advantages of the state fair because Harmon couldn't control the mob

Governor Harmon has stated publicly-very publicly, indeedthat Democratic employes in state offices and institutions shall not be asked to contribute to his campaign fund. Since he has traded Bryan for McLean small sums are unimportant.

"Harmon made good against the constant hostility of a Republican legislature," exclaims an editor-admirer. Specifically, in what? In vetoing bills passed in the interest of morality or in vetoing bills directed against the interests of railway corporations?

The policy peculiarly Taft's which is now attracting most attention-that of the tariff-was recently, with great publicity, added to "my policies" by Col onel Roosevelt. Great men who are righteous cannot seriously disagree in ends to be sought, although they may differ as to the

"Harmon is such a strong man," say his friends, "look how he removed the mayor of New-

Such was the energy of the demand from a disgraced and out raged state that a governor who did not act and act quickly in re moving Mayor Atherton would have had ro political future. Harmon had to.

On the 15th day of August Mr. Harmon's personal organ printed this statement:

"Governor Harmon looks with favor on Roosevelt's big stick methods of settling strikes, and is working on such a line of action."

The big stick has not yet struck in Columbus; possibly because it takes both muscle and nerve to swing the Roosevelt weapon.

A kind Providence, kind to Mayor Gaynor of New York, permitted an almost effective effort to assassinate him. This so endeared him to the Knickerbocker heart that it was announced he will be the candidate for governor of their state.

Now Woodrow Wilson, New Jersey's candidate for the Democratic nomination for the presidency, is nominated for governor of that state.

Will it be Gaynor or Wilson, not Harmon, who will use a governorship as a stepping stone to the White House veranda?

HINTS FOR FARMERS

A Place For Everything.

Recently I stepped into a farmer's parn and looked about, writes a correpondent of Farm and Fireside. The harness was thrown on the hall floor in a promiscuous heap. The saddles were over in a corner, and I noticed the mice had been working on them. A currycomb and brush and three horse blankets lay near by. The hallway seemed to be a general "catch all." I even noticed a hatchet and saw lying loose, and several halters were stretched across the floor.

The owner of all this material was as slovenly with his farming as with his barn. There was no air of prosperity about his place.

A short time afterward I was in the barn that belonged to this man's neighor, and it showed a different view. The owner seemed to have a place for everything. In the hallway was the harness, but each set hung on its own peg. A box near the stalls contained brush and currycomb. At one end of the hallway I found a miniature workshop and bench, and every tool was in its place. Horse covers and halters hung on nails in their corners, and everything about had the appearance of neatness. Needless to say, it was a prosperous, up to date farmer who owned this barn Everything about the place showed the touch of his skill-

DR. KUTCHIN

EX U. S. EXAMINING SURGEON

Specialist for the Treatment and Cure of all Long-Standing and Difficult Chronic Dis-

Will meet his patients in this county every month for the next year, and examine all afflicted free. Office, Columbus, Ohlo.

Dr. Kutchin has been visiting this County every four weeks for fitteen years.

This well known specialist in the treatment and cure of difficult chronic diseases will give all the afflicted an opportunity to consult him free of charge and secure the latest and best treatment for such diseases as the regular family physician is not prepared to treat.

By seeing the Doctor the expense and trouble of visiting the city and going to a Hospital may be avoided.

CHRONIC DISEASES

The Doctor treats no acute diseases, but makes a specialty of chronic and long standing diseases. Cases given up by other Doctors and pronounced incurable he most desires to see. He has treated successfully many cases in Ohio in the last fifteen years that had been given up as incurable.

The Doctor is surrounded with a fine collection of instruments for examining and treating all chronic diseases of the Head, Face, Eye, Ear, Throat, Heart, Lungs, Stomach, Liver, Kidneys, Bladder, Skin, Brain and Nervous System, Cancers, Tumors, Plies, Swellings, Old Sores, Fits, Paralysis, Neuralgia, Rheumatism, Dropsy, Gout, Sick Headache, Debility, Depression of Spifts, Diseases of Children, Hereditary Diseases, etc., and, in fact, all long standing and chronic diseases. All surgical operations performed.

He adopted the following plan, which is peculiar to large hospitals, viz: he carefully notes the symptoms of the patient and ascertains the condition of the internal organs, all of which he carefully records in his register for future reference. In this way he ascertains the true nature of the disease and its cause. When sick people consult him, he readily tells them whether he can cure or help them, or whether they are beyond hope.

HIS IMPROVED METHODS OF TREATMENT

Are mild and pleasant, agree perfectly with the most delicate Lady or Child, do not reduce strength; can be used while at work and give the greatest possible benefit in the shortest possible time. Patients can consult him or communicate with him as often as they choose, during the whole time required for the treatment without extra charge, thus rendering the treatment as successful and satisfactory as though they were living next door.

DISEASES OF WOMEN,

Such as have baffled the skill of other physicians and remedies. Dr. Kutchin quickly cures Cancers, Tumors, Pibroid and Polypoid Growths, cured without the use of the knife. No cutting, no pain, no danger.

A LIFE OF EXPERIENCE

The Doctor has had a whole life of study and experience in his profession and enjoys advantages which fall to the lot of but few. After attending his full courses in the Medical Colleges, and graduating with the highest honors, he was not content to stop there, but has since attended other Colleges, and several times reviewed the whole profession; has also traveled extensively for the purpose of improvement, having visited the best Medical Colleges, Hospitals, Dispensaries, Eye, Ear, Lung and other Medical and Surgical Institutions of Europe, improving every advantage within his command, and devoting the best years of his life to become thoroughly familiar with his profession in all its branches.

There are many diseases which physicians in common practice do not usually treat, such cases are the Doctor's specialties.

Are You Afflicted? Your case may now be perfectly curable, but rember, every moment of neglect brings you nearer its incurable stages, when perhaps, the most skillful physician can render you no assistance. The present is ours, the future may be Too Late.

Free Examination of the Urine.—Each person applying for medical treatment should send or bring 2 to 4 ounces of urine, which will receive a careful examination. #8" Cases and correspondence confidential. Treatment sent C. O. D. to any part of the United States. Correspondence with invalids solicited. All letters with stamps enclosed answered free. Call and be examined and at least learn the cause of your disease, and if it can be cured. Tape Worms removed in from three to five hours without staryation. The remedies for the whole course of treatment are furnished from the office all at once or by the month.
